

This is the recent update about the latest geckodriver release with Selenium WebDriver 3.x version.

Firefox geckodriver does not support Actions Class at this point. They are working on fixing this and only they can update when will it be fixed.

Here is the bug filed: <https://github.com/SeleniumHQ/selenium/issues/2285>

You can use Chrome browser to practice Actions Class lectures.

If you want to use FF, then you can use Selenium WebDriver 2.53.1 and FF 47.0.1 versions.
